1. Executive Summary & Vision

Mejona Technology LLP is a premier software engineering and artificial intelligence consulting firm. We empower enterprises, growing businesses, and startups by designing, building, and deploying scalable digital infrastructure, custom enterprise software, intelligent automation agents, and modern cloud applications. With a multidisciplinary team of engineers, solution architects, and domain experts, Mejona delivers end-to-end technology solutions that drive tangible business outcomes, operational efficiency, and revenue growth.

2. Core Technical Capabilities

- **Web & Mobile App Development:** High-performance web applications using Next.js, React, Node.js, and iOS/Android mobile apps built with React Native and native architectures.
- **AI & Robotic Process Automation:** Custom Generative AI agents, LLM integration, predictive analytics, intelligent document processing, and automated workflow pipelines.
- **Enterprise Custom Software & ERP:** Tailored CRM, ERP, HR Management, and Supply Chain automation systems engineered specifically around complex business workflows.
- **Cloud Infrastructure & DevOps:** Cloud-native modernization on AWS, GCP, and Azure with automated CI/CD pipelines, Kubernetes orchestration, and serverless microservices.
- **Cybersecurity & Data Governance:** ISO 27001 compliant security architecture, DPDP Act data privacy enforcement, vulnerability assessments, and threat mitigation.

Domain	Technologies & Stack	Key Deliverables
Frontend & Mobile	Next.js 14, React, React Native, TypeScript, Tailwind	PWAs, Mobile Apps, Portals
Backend & Cloud	Node.js, Python, Go, Docker, AWS, GCP, Postgres, Redis	Microservices, REST & GraphQL APIs
AI & Data Engineering	OpenAI, Gemini API, PyTorch, LangChain, BigQuery	AI Agents, Chatbots, ML Pipelines

3. Flagship Product Suite

CRM Pro

Next-gen Customer Relationship Management suite featuring AI-driven lead scoring, pipeline forecasting, automated follow-ups, and omni-channel integration.

HR Portal

Comprehensive Talent & Human Capital Management platform covering automated recruitment, attendance tracking, payroll processing, and performance analytics.

AI Customer Care

24/7 autonomous customer service agent capable of resolving complex support inquiries across Web, WhatsApp, and Email with sub-second latency.

Education Portal

Cloud-native Learning Management System (LMS) and Student Information System for modern K-12 and Higher Ed institutions.

4. Proven Track Record & Key Metrics

99.9% Uptime Guaranteed SLA for Cloud Systems	40%+ Cost Reduction Average Saved via AI Automation
100+ Projects Delivered Across India and Overseas Clients	ISO 27001 Certified Enterprise Security Standards
